Description

Summary: After resetting filters, the Interest Rate slider can become unresponsive and provide no feedback on any input made by the user, which can be returned to normal by reloading the page.
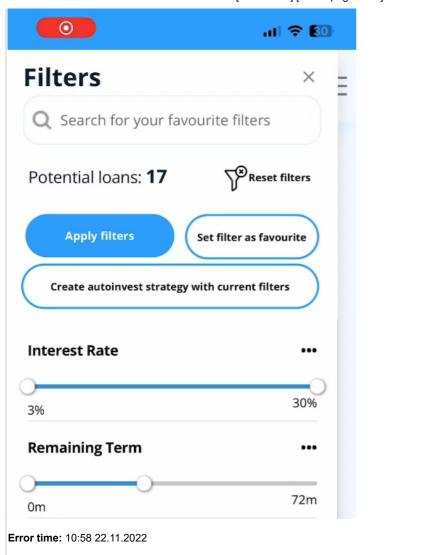

Steps to reproduce:

1. Go to https://income-frontend.code-lab.it/invest
2. Log in
3. Navigate to the Income page
4. Click on the "Filters"
5. Slide the Remaining Term slider to filter out available loans
6. Reset filters
7. Slide interest rate slider to filter out available loans
8. Observe Potential loans area

Expected result:

After resetting filters when sliding the Interest rate slider potential loan count appears and provides feedback to the user on how many loans filter have been found.

Actual result:

The potential loans count does not appear to show loans found by the filter and starts working only after the page reloads.

Error time: 10:58 22.11.2022
