Description

Summary:

When marking your main funds visually it looks like a check list with multiple options rather than radio box with only one source of income.

It would be easier to understand what visually is required from user by rounding out check boxes to have more familiar radio box look.

Steps to reproduce:

1. Register account - https://income-frontend.code-lab.it/register
2. Login
3. Fill personal details
4. Fill investor profile
5. Choose main source of funds
