Description

Summary: Website in landscape mode does not respond correctly to resolution - shows white sides and chat box does not reach edge of the screen

**Steps to reproduce:**

1. Go to https://income-frontend.code-lab.it/invest
2. Open main homepage
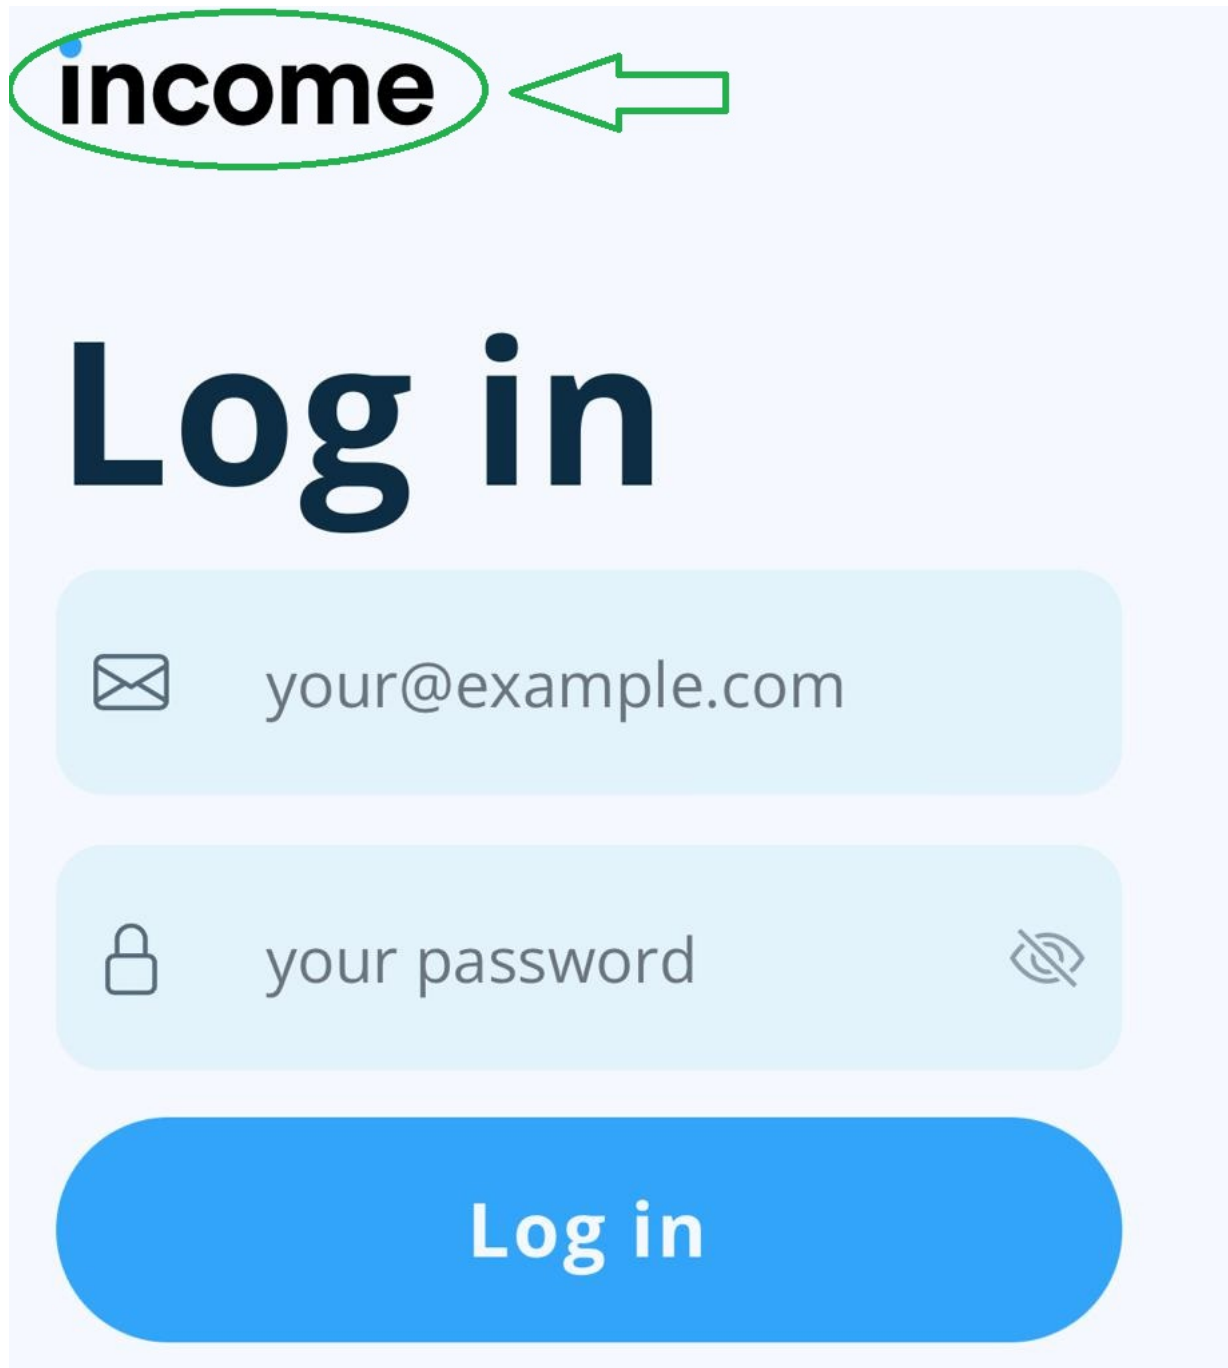

1.

3. Turn screen to landscape mode

Expected results: Website responds correctly to screens resolution changes and adjusts to fill screen completely and move chat box neatly to the side

Actual results: Website leaves white lines on the sides of phones screen and chat box has empty space between it and screens edge.
